## Integrated solutions for solar E. systems

الحلول المتكاملة  
لأنظمة الطاقة الشمسية  
THE INTEGRATED SOLUTIONS  
FOR SOLAR E. SYSTEMS

### Brief

The company Integrated Solution for Solae E-Systems has been established in 2013, in the midst of urgent need of a new and sustainable source of power, especially after the deterioration of traditional electricity systems in the country.

"Necessity is the mother of invention" We have initiated in searching for reliable energy companies in order to establish an entity based on quality and reliability to provide the best possible in this vital field. Our start was bringing an exclusive agency of the Turkish company "SOLIMPEKS" solar Energy Corp.

Now, after 5 years we find ourselves standing proudly at the forefront of specialized companies in the implementation of energy projects in both the public and private sec.

## Our Vision

To meet the urgent need in diversifying energy sources and filling the huge deficit in this important sector, which is considered as the most essential pillar of infrastructure, also to meet the regional and global trend in the alternative energy sector, especially "solar energy" as a crucial source of energy economically, financially and environmentally. We believe that this source will be a strategic and sustainable choice to solve a lot of energy problems. So, accordingly, our vision is based on the following criteria:

- 01 ♦ Provide high quality products that are guaranteed for use in our projects.
- 02 ♦ Acquiring the experience of international companies in the field of solar energy and transfer them to the region by taking agencies and localize them.
- 03 ♦ Relying on technical support to improve project implementation.
- 04 ♦ Provide studies to the relevant authorities.

THE INTEGRATED SOLUTIONS  
FOR SOLAR E. SYSTEMS

## THE INTEGRATED SOLUTIONS FOR SOLAR E. SYSTEMS

## Our working fields:

## Pumping water systems:

**Integrated solutions**  
for solar E. systems

Solar water pumping systems has reached a significant success for users, whether drinking water wells for civil or governmental projects, or irrigation wells for farms. We have implemented many civil projects and other with international organizations using best materials from global brands from the German companies (SIEMENS & LORENTZ) as well as the Turkish company (SOLIMPEKS)

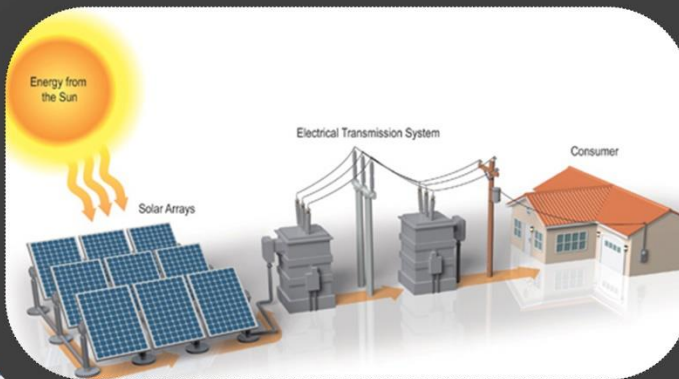

## Solar generating systems

Integrated solutions  
for solar E. systems

الحلول المتكاملة  
لأنظمة الطاقة الشمسية  
THE INTEGRATED SOLUTIONS  
FOR SOLAR E. SYSTEMS

- ✓ We design and implement all electricity generation systems from 1KW to 1MGW .
- ✓ We have designed many projects for houses, mosques and schools with different capacities.
- ✓ We use the best quality products of controller and storage systems as well as inverter systems for reliable brands.
- ✓ We provide (after sale services) and an actual warranty on our products.

## Lighting solutions

Solar lighting has become an attractive option to many countries around the world, especially street lighting and other lighting uses in general, that's because it reduces loads from the general electricity grid, thus saving a lot of money.

## Water heating solutions

We provide quince Heaters "Flat plate Soler Heater collectors" which featuring as bearing to all difficult conditions and reducing maintenance costs, as we as characterized by:

Completely eliminates the use of conventional heaters.

Hybrid usage (Soler OR electric)

Heating water by using copper alloys witch resistant to water salinity

No leakage of water

Turkish-made

Suitable prices

No need for periodic maintenance

5 Years warranty

## Air conditioning & Refrigeration Solutions

In order to find solutions for all home appliances which we use on a daily basis, we have taken "Recreate" agency which considered as a leading company in this field of Air conditioning & Refrigeration that run with a hybrid system which led to reducing the cost of invoice, these appliances can be used in schools, markets, mosques Etc.

## Certificates we proud of
